

HONG KONG STUDY CIRCLE
Author Index, Bulletin/Journal Nos. 1-351

Timothy Webb compiled the bulk, Journal Nos. 1-347, of this list; I (N.J.H.) have added entries for Journal Nos. 348-351 to yield an even number of pages.

The following list, alphabetical by author's name, is based mainly on articles published in HKSC Journals from No. 256 when the then editor, Chris R. Riding, split the Bulletin into two distinct sections, the Newsletter containing principally administrative matters and the Journal containing the technical material. Articles by any one author are in alphabetical order under their name.

Journal Nos. 247-255 were structured as Bulletins where administrative matters preceded the technical material, but were basically similar to Bulletin No. 246 and earlier where the items reported were listed as Contents with technical Appendices added as appropriate. For Journals and Bulletins prior to No. 256, this index includes authors' names where a sizeable contribution was included. It has not been feasible to include every reference to an individual made in these Bulletins.

This list does not include references where individual names occur within the Journal headings 'From Previous Journals', 'Webbaddenda', 'Wilde Cup Entries' or 'Pot-Pourri of Hong Kong': nor does it include stand-alone books and booklets issued covering aspects of Hong Kong philately.

Articles to which authors' names have not been credited are listed under 'Editorial' or 'Editorial Review'. In most instances, the text identifies the name of the contributor concerned, otherwise it is an editor's compilation. The initials of the appropriate editor are given, i.e., C.C.G. = Charles Gower, C.R.R. = Chris Riding, F.W.W. = Colonel F.W. Webb, and T.J.B.W. = Timothy Webb.

It must be mentioned that the name of Charles C. Gower, which is lacking from the alphabetical list of names that follows, is only absent because he did not record items under his own name. As Bulletin Editor from August 1970 to December 1984, he contributed huge amounts of material to our records but in his own style.
