

**THE 1954-1962
DEFINITIVE ISSUE
OF HONG KONG**

**Nick Halewood
and
David Antscherl**

This monograph has been in the works for 26 years! We started in 1996 and restarted in 2002. Now it is 2022, but this time it will be completed (famous last words).

All of our material illustrated has been sold but was scanned before sale. However, there are still some scans that have evaded detection so far and thus are represented by scans of photocopies from a very early mock-up (some photocopies had blue and/or red pencil markings applied on proofing, sorry). As the missing scans are unearthed they will be added in place of the photocopy ones. There are also illustrations, in colour and black & white, from auction catalogues. There are large spaces due to figure placement considerations sometimes. When the main text is complete, the whole thing will be 'polished', when most of these spaces will be removed.

Eventually, this will be very long. At first, we are going to complete the main text, later adding a section on plate flaws that can be used to position stamps. Be warned, there are over 1,100 notable flaws, most of which are on the bi-coloured high values.

We would like to thank the members for facilitating the 'birth' of our latest endeavour.
